Features & Benefits

Canature 565 water softeners offer the following features and benefits:

- Full electronics for more efficient and precise operation to reduce salt and water consumption.
- User-friendly programming and diagnostics.
- Ability to view operational data on our large LED display, without the need for a manual or use of confusing codes.
- Self-charging capacitor to keep track of time in the event of a power outage.
- Fully adjustable cycles for more efficient and effective operation.
- By-pass valve is included, using quick connect fittings.
- Quick connect fittings on brine line, drain line and power cord.
- Pre-loaded mineral tanks available for easy shipping.

By-pass valve with quick connect fittings is included.

Part Number	Pipe Size	Valve Type #565	Continuous Flow Rate (GPM at 15 psi drop)	Backwash Flow Rate (At 25 psi)	Master Ctn. Pack of 4 valves with by-pass	Shipping Weight Pack of 4 (Lbs.)
10010009	¾" - 1"	Electronic	20	7	19x19x16	28

Pre-loaded mineral tanks (with resin, gravel and riser tubes installed for E-Z shipping).

Part Number	Tank Size	Tank Color	Resin (Cu. Ft.)	Gravel (Lbs.)	Number Per Carton	Carton Dimensions	Shipping Weight (Lbs.)
25020006	9x48	Black	1.0	10	1	10x10x51	77
25020005	9x48	Natural	1.0	10	1	10x10x51	77
25020010	10x54	Black	1.5	15	1	11x11x57	104
25020009	10x54	Natural	1.5	15	1	11x11x57	104

Note: Pressure vessels are NSF standard 44 certified and are rated for operating pressures to 150 psi (10 bar) and temperatures between 34°F-122°F.

Brine tanks with safety float, brine well and salt grids, packaged five per carton.
