

Two tank water softener & whole house filter

Ideal system for chlorinated water to reduce chlorine, tastes and odors and provide soft, conditioned water for whole house treatment.

Features & Benefits

- No chlorine, tastes or odors!
- No hard water!
- Uses only one control valve (565 electronic valve with full diagnostics).
- E-Z to program (enter date, time, hardness & number of people).
- Valve comes with by-pass using quick connect fittings.
- You select the carbon (coconut shell or catalytic).
- Brine tanks come with safety float valve, brine well and salt grid.
- Operates effectively at lower salt settings to reduce salt and water usage.

Removes

- Chlorine
 - Odors
 - Hardness
 - Tastes
 - Organics
 - Iron*
- *Pre-treatment may be required.*

Whole house softener & filtration system with coconut shell GAC, resin, square brine tank and 565 valve with bypass.

Model Number	Grains Capacity (#6/cu. ft.)	Service Flow Rate (GPM) at 60psi	Backwash Flow Rate (GPM) at 60psi	Mineral Tank (Carbon)	Coconut Shell Carbon	Mineral Tank (Softener)	Resin (CF)	Brine Tank	Brine Tank (Color)	Jackets (Grey)
HTO-100	25,000	10	2	9X48	1.0 Cu. Ft.	9X48	1.0	Square	Black	Optional
HTO-150	37,500	12	2.5	10x54	1.5 Cu. Ft.	10x54	1.5	Square	Black	Optional

Note: Jackets are optional; call for pricing. 565 valves operate at highly efficient salt settings for reduced salt and water consumption

Whole house softener & filtration system with catalytic GAC, resin, square brine tank and 565 valve with bypass.

Model Number	Grains Capacity (#6/cu. ft.)	Service Flow Rate (GPM) at 60psi	Backwash Flow Rate (GPM) at 60psi	Mineral Tank (Carbon)	Coconut Shell Carbon	Mineral Tank (Softener)	Resin (CF)	Brine Tank	Brine Tank (Color)	Jackets (Grey)
HTO-100C	25,000	10	2	9X48	1.0 Cu. Ft.	9X48	1.0	Square	Black	Optional
HTO-150C	37,500	12	2.5	10x54	1.5 Cu. Ft.	10x54	1.5	Square	Black	Optional

Note: Jackets are optional; call for pricing. 565 valves operate at highly efficient salt settings for reduced salt and water consumption.

Note:

HTO systems are sold as systems and come unassembled, and include the following components:

- 565 electronic control valve and bypass (10010009).
- One pre-loaded mineral tank with resin, gravel & riser tube.
- One empty mineral tank for activated carbon.
- Riser tube for carbon tank (50010005).
- Activated carbon and upper cone for carbon tank.
- Tank quick connector (60010009).
- Top tank adapter head for resin tank (60010067).
- Upper and lower connectors to connect two tanks).
- Parallel tank adaptor (60010012).

Two tank iron reduction system with air induction

Two tank iron filtration systems with air induction are ideal for iron removal, without the use of chemicals, air pump or venturi.

Systems regenerate less often, compared to traditional iron filters using manganese greensand.
